PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other

guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.

- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through July 28, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.

- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$840,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.
- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would

have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.

- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.
- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:
- National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776
- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.

- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

ORIGINAL DESCRIPTION OF THE PROJECT

[ATTACH COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS]

Clean Renewable Energy Bonds Application Exhibit A

Sulphur Springs Valley Electric Cooperative, Inc. (SSVEC)

Benson Unified School District Photovoltaic Solar Shade Structure

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the three Benson Unified School District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. AH customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

Request

A

Proposal

For

A Photovoltaic System

Used for

Shade structures

For

Public Buildings

Issued: August 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5 kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture,

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

Scope of Work: The contractor will be responsible for the following;

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC.
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customer's electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

The Cooperative will provide the following;

- Meter to measure AC output from PV system to owner's electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

Structural Design Requirements:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV Design Requirements:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC.
- Polyphase inverter with voltage to match customer's system.
- Inverter to match capacity of project.
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (selection process will keep this as short as possible)

SunWatts Requirement:

- One-line drawings subject to approval by local Cooperative's engineering department.

- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other

guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.

- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through September 22, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.

3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$560,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would

have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.

- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.
- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.

6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

Sulphur Springs Valley Electric Cooperative, Inc.

Bowie Unified School District Photovoltaic Solar
Shade Structure

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the two Bowie Unified School District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

The RFP issued by Sulphur Springs Valley Electric Cooperative follows.

Sulphur Springs Valley Electric Cooperative, Inc.

A Touchstone Energy® Cooperative

For the Electric Cooperatives in the State of Arizona

Request

A

Proposal

For

A Photovoltaic System

Used for

Shade structures

For

Public Buildings

Issued: August 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

Scope of Work: The contractor will be responsible for the following;

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC.
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed Sun Watts standards
- Basic training for site owner / site operator
- Operators Manual

The Cooperative will provide the following;

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

Structural Design Requirements:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV Design Requirements:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC.
- Polyphase inverter with voltage to match customer's system.
- Inverter to match capacity of project.
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)
- SunWatts Requirement:
- One-line drawings subject to approval by local Cooperative's engineering department.
- Units to operate in parallel with grid
- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket.

Training Requirement:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

G. Involuntary Bankruptcy. An involuntary case or other proceeding shall be commenced against the Borrower seeking liquidation, reorganization or other relief with respect to it or its debts under bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property and such involuntary case or other proceeding shall continue without dismissal or

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "*BORROWER*")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.1 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through September 29, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$840,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. - 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (SSVEC)

COCHISE COLLEGE SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the automobile parking shade structures in the three Cochise College schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

**REQUEST
A
PROPOSAL**

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple freestanding modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as freestanding carports or freestanding covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)
- SunWatts Requirement:
- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost

- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

ARTICLE III

LOAN

Section 3.01 Definitions. For purposes of this Article 3, the following capitalized terms shall have the following meanings:

"Borrower's Annual Bond Repayment Amount" shall mean the amount determined by dividing the CFC Commitment by the number of years from the Closing Date to the Maximum CREB Term Anniversary Date, which amount shall be recalculated on the date CFC rescinds any excess moneys pursuant to Section 3.05 or 3.06 hereof.

"Quarterly Bond Deposit Amount" shall mean for each Payment Date, the amount determined by subtracting from the Quarterly Bond Repayment Amount the principal amount payable by the Borrower pursuant to Section 3.03.A(ii)(b)(1) on such Payment Date.

"Quarterly Bond Repayment Amount" shall mean one-fourth ($\frac{1}{4}$) of the Borrower's Annual Bond Repayment Amount.

Section 3.02 Advances. The obligation of the Borrower to repay the Advances shall be evidenced by the Note. The aggregate amount of all Advances made hereunder shall not exceed the CFC Commitment. At the end of the Draw Period, CFC shall have no further obligation to make Advances.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:
 - (a) accrued interest on the principal amount of the Loan outstanding less the amount of the Initial Advance; and
 - (b) the Quarterly Bond Repayment Amount, consisting of:
 - (1) the principal amount due on any outstanding Advances, determined on the basis of a quarterly amortization schedule from the date of each Advance; and
 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

The term "dissolution or liquidation of the Borrower", as used in this subsection, shall not be construed to include the cessation of the corporate existence of the Borrower resulting either from a merger or consolidation of the Borrower into or with another corporation following a transfer of all or substantially all its assets as an entirety, under the conditions set forth in Section 5.02.A.

J. Material Adverse Change. Any material adverse change in the business or condition, financial or otherwise, of the Borrower.

K. Monetary Judgment. The Borrower shall suffer any money judgment not covered by insurance, writ or warrant of attachment or similar process involving an amount in excess of \$100,000 and shall not discharge, vacate, bond or stay the same within a period of sixty (60) days.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "*BORROWER*")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through October 6, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.
4. Remedial Action.
- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.
- The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.
- The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.
- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.
5. Funds and Accounts; Investments.
- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:
- (i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

COCHISE ELEMENTARY DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structure in the one Cochise Elementary District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components

- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid

- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket
-

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "BORROWER")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "Securities"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "Issuer"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "Code"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "Loan Agreement"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "Closing") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through November 17, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

DOUBLE ADOBE ELEMENTARY SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structures in the one Double Adobe Elementary School District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC

- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (out put degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system.
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

An involuntary case or other proceeding shall be commenced against the Borrower seeking liquidation, reorganization or other relief with respect to it or its debts under bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property and such involuntary case or other proceeding shall continue without dismissal or

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through October 27, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (*e.g.*, any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (*e.g.*, an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

ELFRIDA ELEMENTARY DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structure in the one Elfrida Elementary District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

**A PHOTOVOLTAIC SYSTEM

FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. G. Involuntary Bankruptcy. An involuntary case or other proceeding shall be commenced against the Borrower seeking liquidation, reorganization or other relief with respect to it or its debts under bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property and such involuntary case or other proceeding shall continue without dismissal or

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "*BORROWER*")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through November 24, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. - 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

EMPIRE ELEMENTARY DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the automobile parking shade structure in the one Empire Elementary District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (out put degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

ARTICLE III

LOAN

Section 3.01 Definitions. For purposes of this Article 3, the following capitalized terms shall have the following meanings:

"Borrower's Annual Bond Repayment Amount" shall mean the amount determined by dividing the CFC Commitment by the number of years from the Closing Date to the Maximum CREB Term Anniversary Date, which amount shall be recalculated on the date CFC rescinds any excess moneys pursuant to Section 3.05 or 3.06 hereof.

"Quarterly Bond Deposit Amount" shall mean for each Payment Date, the amount determined by subtracting from the Quarterly Bond Repayment Amount the principal amount payable by the Borrower pursuant to Section 3.03.A(ii)(b)(1) on such Payment Date.

"Quarterly Bond Repayment Amount" shall mean one-fourth ($\frac{1}{4}$) of the Borrower's Annual Bond Repayment Amount.

Section 3.02 Advances. The obligation of the Borrower to repay the Advances shall be evidenced by the Note. The aggregate amount of all Advances made hereunder shall not exceed the CFC Commitment. At the end of the Draw Period, CFC shall have no further obligation to make Advances.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:
 - (a) accrued interest on the principal amount of the Loan outstanding less the amount of the Initial Advance; and
 - (b) the Quarterly Bond Repayment Amount, consisting of:
 - (1) the principal amount due on any outstanding Advances, determined on the basis of a quarterly amortization schedule from the date of each Advance; and
 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

The term "dissolution or liquidation of the Borrower", as used in this subsection, shall not be construed to include the cessation of the corporate existence of the Borrower resulting either from a merger or consolidation of the Borrower into or with another corporation following a transfer of all or substantially all its assets as an entirety, under the conditions set forth in Section 5.02.A.

J. Material Adverse Change. Any material adverse change in the business or condition, financial or otherwise, of the Borrower.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "BORROWER")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "Securities"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "Issuer"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "Code"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "Loan Agreement"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "Closing") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through May 12, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$840,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. - 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

FORT HUACHUCA ACCOMMODATION DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the three Fort Huachuca Accommodation District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

PROPOSAL**

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
CARPORT OR SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

The rights of CFC under this section are in addition to any other rights and remedies (including other rights of setoff or recoupment) which CFC may have. The Borrower waives all rights of setoff, deduction, recoupment or counterclaim;

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "BORROWER")

DATED: as of December 31, 2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "Securities"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "Issuer"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "Code"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "Loan Agreement"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "Closing") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through November 10, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (*e.g.*, any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (*e.g.*, an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation

Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

MCNEAL ELEMENTARY DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structure in the one McNeal Elementary District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

G. Involuntary Bankruptcy. An involuntary case or other proceeding shall be commenced against the Borrower seeking liquidation, reorganization or other relief with respect to it or its debts under bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property and such involuntary case or other proceeding shall continue without dismissal or

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through May 26, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$560,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (*e.g.*, any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (*e.g.*, an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

PALOMINAS ELEMENTARY SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the automobile parking shade structures in two Palominas Elementary School District school parking lots, as noted in item 9 of the application. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

G. Involuntary Bankruptcy. An involuntary case or other proceeding shall be commenced against the Borrower seeking liquidation, reorganization or other relief with respect to it or its debts under bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property and such involuntary case or other proceeding shall continue without dismissal or

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/07

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through July 7, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$840,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (*e.g.*, any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (*e.g.*, an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. Attention: Senior Vice President – Member Services

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

PATAGONIA SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the three Patagonia School District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

REQUEST
A
PROPOSAL

FOR

A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 W to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as freestanding carports or freestanding covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5 kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

ARTICLE III

LOAN

Section 3.01 Definitions. For purposes of this Article 3, the following capitalized terms shall have the following meanings:

"Borrower's Annual Bond Repayment Amount" shall mean the amount determined by dividing the CFC Commitment by the number of years from the Closing Date to the Maximum CREB Term Anniversary Date, which amount shall be recalculated on the date CFC rescinds any excess moneys pursuant to Section 3.05 or 3.06 hereof.

"Quarterly Bond Deposit Amount" shall mean for each Payment Date, the amount determined by subtracting from the Quarterly Bond Repayment Amount the principal amount payable by the Borrower pursuant to Section 3.03.A(ii)(b)(1) on such Payment Date.

"Quarterly Bond Repayment Amount" shall mean one-fourth ($\frac{1}{4}$) of the Borrower's Annual Bond Repayment Amount.

Section 3.02 Advances. The obligation of the Borrower to repay the Advances shall be evidenced by the Note. The aggregate amount of all Advances made hereunder shall not exceed the CFC Commitment. At the end of the Draw Period, CFC shall have no further obligation to make Advances.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:
- (a) accrued interest on the principal amount of the Loan outstanding less the amount of the Initial Advance; and
 - (b) the Quarterly Bond Repayment Amount, consisting of:
 - (1) the principal amount due on any outstanding Advances, determined on the basis of a quarterly amortization schedule from the date of each Advance; and
 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

The term "dissolution or liquidation of the Borrower", as used in this subsection, shall not be construed to include the cessation of the corporate existence of the Borrower resulting either from a merger or consolidation of the Borrower into or with another corporation following a transfer of all or substantially all its assets as an entirety, under the conditions set forth in Section 5.02.A.

J. Material Adverse Change. Any material adverse change in the business or condition, financial or otherwise, of the Borrower.

K. Monetary Judgment. The Borrower shall suffer any money judgment not covered by insurance, writ or warrant of attachment or similar process involving an amount in excess of \$100,000 and shall not discharge, vacate, bond or stay the same within a period of sixty (60) days.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/07

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through October 20, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$560,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. - 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

PEARCE ELEMENTARY SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the two Pearce Elementary School District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

REQUEST
A
PROPOSAL

FOR

A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system.
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/07

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through August 18, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (*e.g.*, any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (*e.g.*, an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

POMERENE ELEMENTARY SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structure in the one Pomerene Elementary School District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

PROPOSAL**

FOR

A PHOTOVOLTAIC SYSTEM

**USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)

- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner/site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

Structural Design Requirements:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project.
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through April 21, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$2,520,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.

3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.

3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

Updated Detailed Description of the Project:

A cantilevered shade structure at a school on the top of which will be constructed a 23kW solar photovoltaic system to supply power to the school. Excess power will flow on to the SSVEC system.

ORIGINAL DESCRIPTION OF THE PROJECT

[ATTACH COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

SIERRA VISTA SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the nine Sierra Vista School District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

The RFP issued by Sulphur Springs Valley Electric Cooperative follows.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

A TOUCHSTONE ENERGY® COOPERATIVE

FOR THE ELECTRIC COOPERATIVES IN THE STATE OF ARIZONA

**REQUEST
A
PROPOSAL**

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple freestanding modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as freestanding carports or freestanding covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all-inclusive, and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC

- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project

- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid

- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:
 - (a) accrued interest on the principal amount of the Loan outstanding less the amount of the Initial Advance; and
 - (b) the Quarterly Bond Repayment Amount, consisting of:
 - (1) the principal amount due on any outstanding Advances, determined on the basis of a quarterly amortization schedule from the date of each Advance; and
 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

Section 8.06 Waiver; Modification. No failure on the part of CFC to exercise, and no delay in exercising, any right or power hereunder or under the other Loan Documents shall operate as a waiver thereof, nor shall any single or partial exercise by CFC of any right hereunder, or any abandonment or discontinuance of steps to enforce such right or power, preclude any other or further exercise thereof or the exercise of any other right or power. No modification or waiver of any provision of this Agreement, the Note or the other Loan Documents and no consent to any departure by the Borrower therefrom shall in any event be effective unless the same shall be in writing by the

SECTION 8.08 INDEMNIFICATION. THE BORROWER HEREBY INDEMNIFIES AND AGREES TO HOLD HARMLESS, AND DEFEND CFC AND ITS MEMBERS, DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, ATTORNEYS AND REPRESENTATIVES (EACH AN "INDEMNITEE") FOR, FROM, AND AGAINST ALL CLAIMS, DAMAGES, LOSSES, LIABILITIES, COSTS, AND EXPENSES (INCLUDING, WITHOUT LIMITATION, COSTS AND EXPENSES OF LITIGATION AND REASONABLE ATTORNEYS' FEES) ARISING FROM ANY CLAIM OR DEMAND IN RESPECT OF THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS, THE MORTGAGED PROPERTY, OR THE TRANSACTIONS DESCRIBED IN THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS AND ARISING AT ANY TIME, WHETHER BEFORE OR AFTER PAYMENT AND PERFORMANCE OF ALL OBLIGATIONS UNDER THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS IN FULL, EXCEPTING ANY SUCH MATTERS ARISING SOLELY FROM THE GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF CFC OR ANY INDEMNITEE INCLUDING WITHOUT LIMITATION ANY DETERMINATION MADE OR OTHER ACTION TAKEN BY CFC PURSUANT TO SECTIONS 3.04, 3.05 and 3.06 OF THIS AGREEMENT. NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED IN SECTION 8.10 HEREOF, THE OBLIGATIONS IMPOSED UPON THE BORROWER BY THIS SECTION SHALL SURVIVE THE REPAYMENT OF THE NOTE, THE TERMINATION OF THIS AGREEMENT AND THE TERMINATION OR RELEASE OF THE LIEN OF THE MORTGAGE.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "BORROWER")

DATED: as of 12/31/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "Securities"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "Issuer"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "Code"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "Loan Agreement"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "Closing") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.

1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.

2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.

3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through June 16, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. SONOITA ELEMENTARY SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structure in the one Sonoita Elementary School District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the

EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

Public Buildings

Issued: August 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner

- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

The execution and delivery of the Loan Documents and performance by the Borrower of the obligations thereunder, and the transactions contemplated hereby or thereby, will not: (i) violate any provision of law, any order, rule or regulation of any court or other agency of government, any award of any arbitrator, the articles of incorporation or by-laws of the Borrower, or any indenture, contract, agreement, mortgage, deed of trust or other instrument to which the Borrower is a party or by which it or any of its property is bound; or (ii) be in conflict with, result in a breach of or constitute (with due notice and/or lapse of time) a default under, any such award, indenture, contract, agreement, mortgage, deed of trust or other instrument, or result in the creation or imposition of any Lien (other than contemplated hereby) upon any of the property or assets of the Borrower.

The Borrower is not in default in any material respect under any agreement or instrument to which it is a party or by which it is bound and no event or condition exists which constitutes a default, or with the giving of notice or lapse of time, or both, would constitute a default under any such agreement or instrument.

E. Taxes. The Borrower, and each of its Subsidiaries, has filed or caused to be filed all federal, state and local tax returns which are required to be filed and has paid or caused to be paid all federal, state and local taxes, assessments, and governmental charges and levies thereon, including interest and penalties to the extent that such taxes, assessments, and governmental charges and levies have become due, except for such taxes, assessments, and governmental charges and levies which the Borrower or any Subsidiary is contesting in good faith by appropriate proceedings for which adequate reserves have been set aside.

There are no outstanding judgments, suits, claims, actions or proceedings pending or, to the knowledge of the Borrower, threatened against or affecting the Borrower, its Subsidiaries or any of their respective properties which, if adversely determined, either individually or collectively, would have a material adverse effect upon the business, operations, prospects, assets, liabilities or financial condition of the Borrower or its Subsidiaries. The Borrower and its Subsidiaries are not, to the Borrower's knowledge, in default or violation with respect to any judgment, order, writ, injunction, decree, rule or regulation of any Governmental Authority which would have a material adverse effect upon the business, operations, prospects, assets, liabilities or financial condition of the Borrower or its Subsidiaries.

H. Financial Statements. The balance sheet of the Borrower as at the date identified in Schedule 1 hereto, the statement of operations of the Borrower for the period ending on said date, and the interim financial statements of the Borrower, all heretofore furnished to CFC, are complete and correct. K. Compliance With Laws. The Borrower and each Subsidiary is in compliance, in all material respects, with all applicable requirements of law and all applicable rules and regulations of each Governmental Authority.

L. Disclosure. To the Borrower's knowledge, information and belief, neither this Agreement nor any document, certificate or financial statement furnished to CFC by or on behalf of the Borrower in connection herewith (all such documents, certificates and financial statements, taken as a whole) contains any untrue statement of a material fact or omits to state any material fact necessary in order to make the statements contained herein and therein not misleading.

M. No Other Liens. As to property which is presently included in the description of Mortgaged Property, the Borrower has not, without the prior written approval of CFC, executed or authenticated any security agreement or mortgage, or filed or authorized any financing statement to be filed with respect to assets owned by it, other than security agreements, mortgages and financing statements in favor of CFC, except as disclosed in writing to CFC prior to the date hereof or relating to Permitted Encumbrances.

ARTICLE III

LOAN

Section 3.01 Definitions. For purposes of this Article 3, the following capitalized terms shall have the following meanings:

"Borrower's Annual Bond Repayment Amount" shall mean the amount determined by dividing the CFC Commitment by the number of years from the Closing Date to the Maximum CREB Term Anniversary Date, which amount shall be recalculated on the date CFC rescinds any excess moneys pursuant to Section 3.05 or 3.06 hereof.

"Quarterly Bond Deposit Amount" shall mean for each Payment Date, the amount determined by subtracting from the Quarterly Bond Repayment Amount the principal amount payable by the Borrower pursuant to Section 3.03.A(ii)(b)(1) on such Payment Date.

"Quarterly Bond Repayment Amount" shall mean one-fourth ($\frac{1}{4}$) of the Borrower's Annual Bond Repayment Amount.

Section 3.02 Advances. The obligation of the Borrower to repay the Advances shall be evidenced by the Note. The aggregate amount of all Advances made hereunder shall not exceed the CFC Commitment. At the end of the Draw Period, CFC shall have no further obligation to make Advances.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:
 - (a) accrued interest on the principal amount of the Loan outstanding less the amount of the Initial Advance; and
 - (b) the Quarterly Bond Repayment Amount, consisting of:
 - (1) the principal amount due on any outstanding Advances, determined on the basis of a quarterly amortization schedule from the date of each Advance; and
 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through August 11, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$560,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.
4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. - 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.

ORIGINAL DESCRIPTION OF THE PROJECT

[EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

ST. DAVID UNIFIED SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 23 kW of electricity in the shade structures in the two St. David Unified School District schools. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

PROPOSAL**

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)

- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system.
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems
- Low harmonics

- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. - (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.

- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "**BORROWER**")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through December 1, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. The Address for Notices of the Issuer is as follows:

National Rural Utilities Cooperative Finance Corporation
2201 Cooperative Way
Herndon, Virginia 20171-3025
Attention: Senior Vice President – Member Services
Fax #703-709-6776

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. UNIVERSITY OF ARIZONA SOUTH DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23kW of electricity in the shade structure in the University of Arizona South school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all-inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems

- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

 - (2) the Quarterly Bond Deposit Amount.
- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

An involuntary case or other proceeding shall be commenced against the Borrower seeking liquidation, reorganization or other relief with respect to it or its debts under bankruptcy, insolvency or other similar law now or hereafter in effect or seeking the appointment of a trustee, receiver, liquidator, custodian or other similar official of it or any substantial part of its property and such involuntary case or other proceeding shall continue without dismissal or

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "*BORROWER*")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "*Securities*"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "*Issuer*"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "*Code*"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "*Loan Agreement*"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "*Closing*") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through November 3, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$280,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

- 6.3 All notices provided for herein shall be given or made in writing (including, without limitation, by telecopy) and delivered to the Issuer at the "Address for Notices" specified below. All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. Attention: Senior Vice President – Member Services

- 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.
- 6.8 This Project Agreement shall terminate on the date three (3) years after the CREB Maturity Date.

The undersigned acknowledge that this Project Agreement is given as a basis for an opinion of the law firm of Chapman and Cutler LLP, Chicago, Illinois, and such firm is hereby authorized to rely on this Project Agreement.

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

VALLEY UNION SCHOOL DISTRICT PHOTOVOLTAIC SOLAR SHADE STRUCTURE

This project will place a photovoltaic module costing \$280,000, that will produce 23 kW of electricity in the shade structures in the one Valley Union School District school. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10 kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all-inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK -THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components
- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)

- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the **site owner**

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid
- Includes protection for out of frequency problems
- Low harmonics

- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

ARTICLE III

LOAN

Section 3.01 Definitions. For purposes of this Article 3, the following capitalized terms shall have the following meanings:

"Borrower's Annual Bond Repayment Amount" shall mean the amount determined by dividing the CFC Commitment by the number of years from the Closing Date to the Maximum CREB Term Anniversary Date, which amount shall be recalculated on the date CFC rescinds any excess moneys pursuant to Section 3.05 or 3.06 hereof.

"Quarterly Bond Deposit Amount" shall mean for each Payment Date, the amount determined by subtracting from the Quarterly Bond Repayment Amount the principal amount payable by the Borrower pursuant to Section 3.03.A(ii)(b)(1) on such Payment Date.

"Quarterly Bond Repayment Amount" shall mean one-fourth ($\frac{1}{4}$) of the Borrower's Annual Bond Repayment Amount.

Section 3.02 Advances. The obligation of the Borrower to repay the Advances shall be evidenced by the Note. The aggregate amount of all Advances made hereunder shall not exceed the CFC Commitment. At the end of the Draw Period, CFC shall have no further obligation to make Advances.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.

- (ii) On each Payment Date, the Borrower shall promptly pay the following:

- (a) accrued interest on the principal amount of the Loan outstanding less the amount of the Initial Advance; and

- (b) the Quarterly Bond Repayment Amount, consisting of:

- (1) the principal amount due on any outstanding Advances, determined on the basis of a quarterly amortization schedule from the date of each Advance; and

- (2) the Quarterly Bond Deposit Amount.

- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.

- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.

- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.

- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Borrower agrees that the records of, and all computations by, CFC (in whatever media they are recorded or maintained) as to the amount of principal, interest, fees and Quarterly Bond Deposit Amount due on the Loan shall be conclusive in the absence of manifest error.

B. Application of Payments. Each payment shall be applied to the Loan, first to any fees, costs, expenses or charges other than interest or principal, second to interest accrued, third to the Quarterly Bond Deposit Amount and the balance to principal.

C. Application of Bond Repayment Deposit. At such time as the aggregate amount billed by CFC in any calendar year on account of amortized principal under this Agreement exceeds the Borrower's Annual Bond Repayment Amount for such year, CFC shall apply a portion of the Borrower's prior payments of the Quarterly Bond Deposit Amount in the amount of such overage to principal then due. Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

Section 3.04. Extraordinary Obligation to Prepay. Upon a Determination of Tax Credit Ineligibility that subjects the CREBs to an extraordinary mandatory redemption due to a failure of the Borrower to observe any agreement or representation in this Loan Agreement (as more particularly described in paragraph (b) of the defined term "Determination of Tax Credit Ineligibility"), the Borrower shall prepay the Loan, or such part thereof as determined by CFC, at such times and in such amounts as determined by CFC within sixty (60) days of such determination together with a prepayment premium prescribed by CFC pursuant to its policies of general application in effect from time to time.

Section 3.05. Rescission of Excess Moneys; Fee. If the Borrower has not drawn down the full amount of the CFC Commitment at (i) the time of filing the Completion Certificate under Section 5.01P. hereof, (ii) the time of filing the Termination Certificate under 5.01Q. hereof, (iii) a Determination of Tax Credit Ineligibility or (iv) the end of the Draw Period, a corresponding rescission of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without further action by the Borrower. CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

Section 3.06. Cancellation of Excess Moneys. If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

Section 3.07. Default Rate. If Borrower defaults on its obligation to make a payment due hereunder by the applicable Payment Date, and such default continues for thirty days thereafter, then

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.

Section 3.09. Optional Prepayment. Except for prepayments made pursuant to Section 3.04 hereof, no prepayment of any Advance, in whole or in part, may be made by the Borrower.

PROJECT AGREEMENT

OF

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC. (THE "BORROWER")

DATED: as of 12/21/2007

The undersigned is a duly qualified officer of the Borrower named above and, as such officer, is familiar with (i) the properties, affairs and records of the Borrower, (ii) the issuance of the Securities (as hereinafter defined) and the use of the proceeds thereof as it relates to the Borrower and (iii) the Project, as hereinafter defined.

In connection with the issuance of the Clean Renewable Energy Bonds (Cooperative Renewable Energy Projects) Series 2008A (the "Securities"), being issued by the National Rural Utilities Cooperative Finance Corporation (the "Issuer"), the undersigned hereby certifies and covenants regarding the use of the proceeds of the Securities advanced to the Borrower, as follows:

1. General.

- 1.1 This Project Agreement is made pursuant to Section 54 of the Internal Revenue Code of 1986, as amended (the "Code"), and any United States Treasury regulations and other guidance thereunder to make the certifications required by Section 54 of the Code and any United States Treasury regulations and other guidance thereunder and to establish the reasonable expectations of the Borrower with respect to the amount and use of amounts to be advanced to the Borrower pursuant to the Loan Agreement dated as of even date herewith between the Issuer and the Borrower (the "Loan Agreement"). Capitalized terms used herein are defined where they first appear or are defined in *Exhibit A* attached hereto.
- 1.2 This Project Agreement is based on facts and estimates in existence on the date hereof and the continued veracity of these facts and estimates as of the date that the Securities are issued (the "Closing") will be confirmed by the Borrower on the date of Closing, and on the basis of such facts and estimates, the Borrower expects that the events described herein will occur. To the best of the undersigned's knowledge, information, and belief, the expectations contained in this Project Agreement are reasonable.
- 1.3 The Borrower is a Qualified Borrower, as defined in *Exhibit A*, and is responsible for the acquiring/constructing/equipping of the Project (defined below). The undersigned has reviewed this Project Agreement, as well as the provisions of Section 54 of the Code and any United States Treasury regulations and other guidance thereunder, with its own legal counsel and understands and is familiar with this Project Agreement and the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder. The Borrower will

comply in all respects with the provisions of Section 54 and any United States Treasury regulations and other guidance thereunder.

- 1.4 The Borrower agrees to keep and retain or cause to be kept and retained sufficient records to demonstrate compliance with the covenants in this Project Agreement. Such records shall include, but are not limited to, basic records relating to the issuance of the Securities (including this Project Agreement and the inducement resolution as described in Section 3.3 hereof); documentation evidencing the expenditure of amounts advanced to the Borrower pursuant to the Loan Agreement; documentation evidencing the use of property financed with amounts advanced to the Borrower pursuant to the Loan Agreement; and documentation evidencing all sources of payment or security maintained by the Borrower for amounts advanced to the Borrower pursuant to the Loan Agreement. Such records shall be kept until the date three (3) years after the CREB Maturity Date.
- 1.5 Neither the Borrower nor any Related Person (as defined in Exhibit A) to the Borrower will purchase any Securities.

2. Qualified Project.

- 2.1 The Loan Agreement requires the amounts advanced thereunder to be used for facilities to be owned by the Borrower, described in more detail in Section 2.2 hereof and in *Exhibit B* attached hereto as the "Updated Description of the Project" (the "*Project*"). The Project was originally described in an exhibit to the Application for National Clean Renewable Energy Bond Limitation submitted to the Internal Revenue Service by the Issuer in support of the national clean renewable energy bond allocation received by the Issuer, which "Original Description of the Project" is attached hereto as *Exhibit C*.
- 2.2 The Project is a Solar Energy Facility (the "*Qualifying Facility*"), as defined in *Exhibit A* and property functionally related and subordinate thereto, as further described in *Exhibit B*, attached hereto.

3. Clean Renewable Energy Bonds Qualification.

- 3.1 At least 95 percent of the proceeds advanced to the Borrower pursuant to the Loan Agreement will be used by the Borrower for capital expenditures with respect to the Project. None of the proceeds of the Loan (as defined in the Loan Agreement) will be paid to the Issuer, the Borrower or any Related Person to the Issuer or the Borrower, except for amounts paid to the Borrower to reimburse the Borrower for actual and direct expenditures relating to the Project paid by the Borrower to persons other than the Issuer, the Borrower or any Related Person to the Issuer or the Borrower.
- 3.2 The Borrower has incurred or will, within six months of the Closing Date, incur a substantial binding obligation (not subject to contingencies within the control of the Issuer, the Borrower or any Related Person to either of them) to a third party

to expend at least ten percent of the Loan Amount (*i.e.* the total amount to be advanced to the Borrower pursuant to the Loan Agreement). It is expected that the work of acquiring/constructing/equipping the Project and the expenditure of the Loan Amount will proceed with due diligence through September 8, 2008, at which time it is anticipated that the Loan Amount will have been spent in its entirety. The Borrower acknowledges that, to the extent that less than 95 percent of the Loan Amount is expended by a date five years from the date of issuance of the Securities, the Borrower will be required to prepay its Loan in an amount, and the Issuer will redeem Securities at the end of such five-year period in an amount, necessary to maintain the tax credit with respect to the Securities, unless otherwise permitted by Section 6.5 hereof.

It is expected that all amounts advanced to the Borrower under the Loan Agreement will be spent to pay costs of the Project in accordance with the estimated periodic drawdown schedule contained in *Exhibit D*, attached hereto. The assumptions set forth in this Section 3.2 and on *Exhibit D*, attached hereto, represent the Borrower's best estimate, as of this date, of the periodic drawdown schedule of the Loan Amount.

- 3.3 The Borrower may use amounts advanced to the Borrower under the Loan Agreement to reimburse itself for expenditures paid prior to the date of issuance of the Securities. The Borrower shall reimburse itself for expenditures paid prior to the date of issuance of the Securities only if such expenditure was paid after the Borrower adopted an inducement resolution, and the expenditure is described in such inducement resolution.

The Borrower shall use proceeds of the Loan to reimburse itself for expenditures paid prior to the date the Securities were issued only if such reimbursement is made within eighteen months after the later of (i) the date the expenditure is paid or (ii) the date the Project is placed in service, but in no event later than three years after the date the original expenditure was paid.

Except for any reimbursement allowed under this Section 3.3, no portion of the proceeds advanced to the Borrower will be used to pay for expenditures relating to acquiring existing facilities (as contrasted with costs of enhancements, repair or rehabilitation of existing facilities).

- 3.4 Neither the Project nor any portion thereof has been, is expected to be, or will be sold or otherwise disposed of, in whole or in part, prior to the last maturity date of the Securities.
- 3.5 The Borrower has entered into the Loan Agreement of even date hereof under which it is committed to borrow \$840,000 from the Issuer of the Securities and the Borrower reasonably expects to borrow and expend the full amount of such commitment.

- 3.6 At least 75% of the Loan Amount is expected to be used for Construction Purposes.
- 3.7 The Borrower will not use proceeds of the Loan (i) to pre-pay for goods or services to be received over a period of years prior to the date such goods or services are to be received, or (ii) to pay for or otherwise acquire goods or services from an Affiliated Person, as defined in *Exhibit A*.
- 3.8 The Borrower shall at all times be a Qualified Borrower.

4. Remedial Action.

- 4.1 The Borrower agrees to operate the Project as a Qualifying Facility.

The Borrower acknowledges that if property financed with proceeds of the Securities advanced to the Borrower is operated in a manner other than as a Qualifying Facility such operation may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed.

The Borrower shall promptly contact the Issuer as provided in Section 6.3 hereof if it considers operating property financed with proceeds of the Loan other than as a Qualifying Facility.

- 4.2 The Borrower acknowledges that if property financed with proceeds of the Loan is sold or otherwise disposed of in a manner contrary to the provisions of Section 3.4 hereof, such sale or disposition may constitute a "deliberate action" that may require remedial actions to prevent the tax credit being produced by the Securities from being disallowed. If the Borrower considers the sale or other disposition of property financed with proceeds of the Loan, it shall promptly contact the Issuer, in the manner set forth in Section 6.3 hereof.

5. Funds and Accounts; Investments.

- 5.1 After the issuance of the Securities, neither the Borrower nor any Related Person to the Borrower has or will have any property, including cash, securities or any other property held as a passive vehicle for the production of income or for investment purposes, that constitutes:

(i) amounts that have a sufficiently direct nexus to the Securities or to the governmental purpose of the Securities to conclude that the amounts would have been used for that governmental purpose if the Securities were not used or to be used for that governmental purpose (the mere availability or preliminary earmarking of such amounts for a governmental purpose, however, does not itself establish such a sufficient nexus);

(ii) amounts in a debt service fund, redemption fund, reserve fund, replacement fund or any similar fund to the extent reasonably expected to be used directly or indirectly to pay principal of or interest on the Securities or any amounts for which there is provided, directly or indirectly, a reasonable assurance that the amount will be available to pay principal of or interest on the Securities or any credit enhancement or liquidity device with respect to the Securities, even if the Issuer, the Borrower or any Related Person to either of them encounter financial difficulties; or

(iii) any amounts held pursuant to any agreement (such as an agreement to maintain certain levels of types of assets) made for the benefit of the holders of the Securities or any credit enhancement provider, including any liquidity device or negative pledge (e.g., any amount pledged to pay principal of or interest on an issue held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of holders of the Securities or a guarantor of the Securities).

No compensating balance, liquidity account, negative pledge of property held for investment purposes required to be maintained at least at a particular level or similar arrangement exists with respect to, in any way, the Securities or any credit enhancement or liquidity device related to the Securities.

- 5.2 During the acquiring/constructing/equipping of the Project, the Borrower will only draw down amounts from the Issuer for capital expenditures already paid by the Borrower.
- 5.3 Neither the Borrower nor any Related Person to the Borrower will enter into any hedge (e.g., an interest rate swap, interest rate cap, futures contract, forward contract or an option) with respect to the Loan or the Securities.
- 5.4 All property subject to the Mortgage is and will be used by the Borrower in the conduct of its trade or business. The Borrower reasonably expects to repay the Loan from current operating revenues. The Mortgage does not require that cash, securities, obligations, annuity contracts or other property held principally as a passive vehicle for the production of income be maintained, individually or collectively, at any particular level.

6. Miscellaneous.

- 6.1 This Project Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia.
- 6.2 Prior to the date 15 days before the Securities were sold, neither the Borrower nor any Related Person to the Borrower has sold or delivered any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities. Neither the Borrower nor any Related Person to the Borrower will sell

or deliver within 15 days after the date hereof any obligations that are reasonably expected to be paid out of substantially the same source of funds as the Securities.

All such communications shall be deemed to have been duly given (i) when personally delivered including, without limitation, by overnight mail or courier service, (ii) in the case of notice by United States mail, certified or registered, postage prepaid, return receipt requested, upon receipt thereof, or (iii) in the case of notice by telecopy, upon transmission thereof, provided such transmission is promptly confirmed by either of the methods set forth in clauses (i) or (ii) above in each case given or addressed as provided for herein. - 6.4 The Borrower represents that it has not been contacted by the Internal Revenue Service or any issuer of bonds, the proceeds of which were loaned to the Borrower regarding any examination of any tax exempt bonds issued for the benefit of the Borrower. To the best of the knowledge of the Borrower, no such obligations of the Borrower are currently under examination by the Internal Revenue Service.
- 6.5 Any restriction or covenant contained herein need not be observed or may be changed if such nonobservance or change will not result in the loss of any tax credit under Section 54 of the Code for the purpose of federal income taxation to which the Securities is otherwise entitled and the Borrower receives an opinion of Bond Counsel to such effect and the Issuer agrees to such nonobservance or change.
- 6.6 If any clause, provision or section of this Project Agreement is ruled invalid by any court of competent jurisdiction, the invalidity of such clause, provision or section shall not affect any of the remaining clauses, sections or provisions hereof.
- 6.7 The terms, provisions, covenants and conditions of this Project Agreement shall bind and inure to the benefit of the respective successors and assigns of the Issuer and the Borrower.

ORIGINAL DESCRIPTION OF THE PROJECT

[COPY OF EXHIBIT A TO ISSUER APPLICATION TO THE IRS] CLEAN RENEWABLE ENERGY BONDS APPLICATION EXHIBIT A

SULPHUR SPRINGS VALLEY ELECTRIC COOPERATIVE, INC.

WILLCOX UNIFIED SCHOOL DISTRICT PHOTOVOLTAIC SOLAR AUTOMOBILE PARKING SHADE STRUCTURE

This project will place photovoltaic modules costing \$280,000 each, that will produce 20 kW of electricity in the automobile parking shade structures in the three Willcox Unified School District school parking lots, as noted in item 9 of the application. The PV structure will provide electricity to the respective school at no charge. There will also be a cable connection to a computer in the library of each school to show students how the system is working.

This project is the identical project that Navopache Electric Cooperative in Arizona built in 2001 that continues to function with no issues/problems.

SSVEC will operate and maintain the structure. Any excess power produced will flow back to the SSVEC grid.

The PV structures at the schools will significantly reduce their electric bills, which have been disproportionately large due to the per meter monthly surcharges mandated by the Environmental Portfolio Program (EPP), and approved by the Arizona Corporation Commission. All customers pay the EPP fees to SSVEC, which uses them to fund renewable energy projects. Since each school has many meters, they pay the EPP a disproportionately large amount of dollars. The benefit of reduced electric bills will offset their payments into the fund.

PROPOSAL**

FOR

**A PHOTOVOLTAIC SYSTEM
USED FOR
CARPORT OR SHADE STRUCTURES
FOR
PUBLIC BUILDINGS**

ISSUED: AUGUST 1, 2005

Narrative: The Electric Cooperatives in Arizona (Duncan Valley EC, Graham County EC, Mohave EC, Navopache EC, Sulphur Springs Valley EC, Trico EC and Arizona Electric Power Cooperative, Inc.) request a proposal for a modular designed system to supply a 10kW to 30 kW Photovoltaic (PV) system. System size is relative to the space available for the PV panels on each site. System may consist of multiple free standing modules interconnected to meet the 10 to 30 kW size requirement. Modules to be used as free standing carports or free standing covers for walkways to provide shade. These systems are to be used at public buildings to increase the awareness of PV systems and operations and systems will be sized based on the available space. Base pricing for 10, 15, 20, 25, and 30 kW systems are requested (systems may be rounded to the nearest 5kW increment). The interconnection cost from the PV system to nearest distribution panel will be on a case by case basis due to the variation in sites. This RFP is not all-inclusive and contractor may include other specifications or requirements they feel are necessary for a successful venture.

This RFP is released on August 1, 2005 and response must be in a written proposal by October 1, 2005. For questions or clarification of details please contact Albert Gomez (520-515-3473) or David Bane (520-515-3472).

SCOPE OF WORK - THE CONTRACTOR WILL BE RESPONSIBLE FOR THE FOLLOWING:

- Structural design of the supporting PV structures (carport and walkway)
- One line circuit diagrams for approval by local Cooperative's engineering department
- Complete wiring diagrams (to be included in owner manual)
- Isolation transformers as needed to meet the NEC
- Purchase and installation of all components

- Systems test period of 4-6 weeks prior to transfer of title of equipment to site owner
- Any required Permits (Cooperative will reimburse actual cost of permits)
- Meter socket on the A/C output of the inverter(s)
- Interconnection with Customers electric service
- Fencing around inverters and other equipment as required for security and public safety
- Project to meet or exceed SunWatts standards
- Basic training for site owner / site operator
- Operators Manual

THE COOPERATIVE WILL PROVIDE THE FOLLOWING:

- Meter to measure AC output from PV system to owners electric panel
- Written permission from site owner to build the PV Module
- Act as the point of contact with the installation Contractor on behalf of the site owner

STRUCTURAL DESIGN REQUIREMENTS:

The basic structure is to support the PV cells but must be able to work as a carport with all the required clearances. Support should be in a cantilever style to allow easy parking, spacing on vertical supports should be in multiples of 10 feet to be able to match typical parking lot spacing, height should allow the parking of full size passenger vans, and structure does not have to be water proof (providing shade to vehicles is secondary to the production of energy). Sample profile (to show intent not required design) is on page 4. Ideal structure would have the ability to support PV panels that would be effective if the long side of the structure is in a North-South as well as East-West orientation.

PV DESIGN REQUIREMENTS:

- PV panels shall have warranty for a minimum of 15 years to cover rated output (output degradation not to exceed 20% over life of panel)
- All system components will be UL certified
- System will include isolation transformers per section 250-30 of the NEC
- Polyphase inverter with voltage to match customer's system
- Inverter to match capacity of project
- 15 year manufacturers warranty on Inverter (contractor may use an extended warranty insurance policy to meet 15 year requirement)
- Contractor will warranty repair labor at 100% for first 5 years, 66% of labor for second 5 years, and 33% of labor for remaining 5 years, (limited to warranty repairs)
- Interconnection costs from site of PV system to nearest practical distribution panel will be on a case by case basis, (site selection process will keep this as short as possible)

SUNWATTS REQUIREMENTS:

- One-line drawings subject to approval by local Cooperative's engineering department
- Units to operate in parallel with grid

- Includes protection for out of frequency problems
- Low harmonics
- Inverter must disconnect in the event grid power is lost
- Lockable safety switch located between the inverter and meter socket

TRAINING REQUIREMENTS:

The Contractor will provide sufficient time with the site owner to explain how to disconnect the system, locate inverter, identify all junction boxes between the modules, and identify any system warning lights or displays. Contractor will also provide system manual with basic operating instructions and all the associated warranty information and manufacturer contacts listed.

A. Initial Advance. Borrower hereby agrees that on the Closing Date, CFC shall automatically, and without action by Borrower, make the Initial Advance. On the Closing Date, CFC shall notify Borrower of the final amount of the Initial Advance and the amount of the CFC Commitment remaining for Borrower to subsequently Advance.

B. Subsequent Advances.

- (i) The Borrower may submit a request for the Primary Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia seven Business Days prior to the Closing Date. The Primary Advance may be requested in any amount up to the CFC Commitment. CFC shall make the Primary Advance two Business Days after the Closing Date in the lesser of (i) the aggregate amount of such requested Primary Advance, and (ii) the amount of the CFC Commitment less the amount of the Initial Advance.

- (ii) Except as set forth in 3.02.A and 3.02.B(i) hereof, the Borrower shall submit its request for an Advance to CFC in writing (which may be submitted by facsimile) no later than 12:00 noon local time at CFC's offices in Herndon, Virginia at least two (2) Business Days prior to the last Business Day of any calendar month. Borrower may make multiple requests for Advances during any calendar month in any amount so long as the aggregate amount of all Advances requested in such month is in an amount not less than \$100,000.00; *provided, however* that at such time as there remains less than \$100,000.00 available for Advance hereunder, Borrower may request the entirety of such remaining amount. CFC shall make a single Advance to Borrower on the first Business Day of the calendar month following Borrower's request(s) for an Advance. Such Advance shall be in the aggregate amount of all Advances requested by Borrower in the prior month, *provided however* that at such time as there remains less than \$100,000.00 available for Advance hereunder and Borrower requests the entirety of such remaining amount, CFC shall Advance the entirety of such remaining amount.

Section 3.03 Interest Rate and Payment. The Note shall be payable and bear interest as follows:

A. Payments; Maturity; Amortization.

- (i) The Note shall be due and payable on the Maturity Date.
- (ii) On each Payment Date, the Borrower shall promptly pay the following:

- (iii) If not sooner paid, any amount due on account of the unpaid principal, interest accrued thereon and fees, if any, shall be due and payable on the Maturity Date.
- (iv) Each Advance shall amortize on a level principal payment basis from the date thereof through the Maturity Date.
- (v) CFC will furnish to the Borrower a Payment Notice at least ten (10) days before each Payment Date, provided, however, that CFC's failure to send a Payment Notice shall not constitute a waiver by CFC or be deemed to relieve the Borrower of its obligation to make payments as and when due as provided for herein.
- (vi) No provision of this Agreement or of any Note shall require the payment, or permit the collection, of interest in excess of the highest rate permitted by applicable law.

Until such time, Borrower's payments of the Quarterly Bond Deposit Amount shall not reduce the amount of principal outstanding and subject to amortization. Any amount paid by the Borrower under this Agreement on account of the Quarterly Bond Deposit Amount in excess of the principal amount of the fully advanced Loan shall be refunded to the Borrower on the Maturity Date.

D. Interest Rate Computation. Each Advance except the Initial Advance shall bear interest at the CFC CREB Rate which shall apply until the Maturity Date. The Initial Advance shall not bear interest. Interest on Advances shall be computed on the basis of a 30-day month and 360-day year.

CFC shall release the Borrower from its obligations hereunder as to such rescinded portion, provided the Borrower complies with such terms and conditions as CFC may impose for such release including, without limitation, payment of any rescission fee that CFC may from time to time prescribe, pursuant to its policies of general application.

If the Borrower has not drawn down the full amount of the CFC Commitment at the time CFC determines that it will cease making Advances hereunder pursuant to Section 7.01 hereof, a corresponding cancellation of the amount of principal available to be drawn on the Note as calculated by CFC shall automatically be made without action by the Borrower.

beginning on the thirty-first day after the Payment Date and for so long as such default continues, Advances shall bear interest at the Default Rate.

Section 3.08. Patronage Capital; Interest Rate Discounts. No patronage capital shall be earned, and no interest rate discounts shall apply, to the Loan.
